OWNERS MANUAL

SERENA & SOFIA RISER RECLINER ARMCHAIRS

SERENA & SOFIA RISER RECLINER ARMCHAIRS

Serena:- Button Back, Standard Back & Waterfall Back

Sofia, Button Back

Introduction

The Serena is supplied with single or double motors . The single motor chair is available in a range of 3 different coloured fabrics (mocha, cinnamon, oatmeal) and a wine coloured vinyl. The dual motor chair is available in a range of 3 different fabrics (mocha, cinnamon, oatmeal). The sofia is available with a single motor and 3 different fabrics (mocha, cinnamon, oatmeal).

The battery back up system on the Serena/Sofia enables the chair to be raised and lowered at least 3 times, in the event of a power failure.

The Serena/Sofia are CE marked and are flame retardant in accordance with BS 7176 : 2007 - Medium

Dual Motor Chair

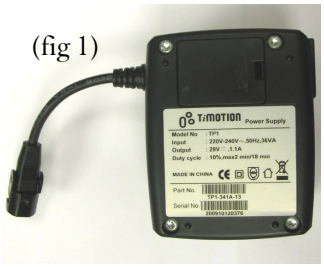
SERENA & SOFIA RISER RECLINER ARMCHAIRS

On receipt of your Riser Recliner Armchair, you will be in possession of the following parts:-
Seat Base, Backrest, Transformer, Handset, Head and Arm Covers & Batteries.

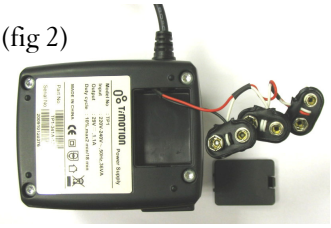
Assembly Instructions

1. Working at the back of the chair, untie cable ties and connect lead to the Transformer (fig 1).
2. Remove cover and connect batteries to Transformer (fig 2). Batteries can be found in side pocket of chair.
3. Plug into mains (fig 3). Your Days Healthcare Lift & Recline Chair operates on standard household electric.
4. Remove handset from side pocket.
5. Before fitting backrest, recline the chair via the handset .
6. Clip backrest onto base, ensuring both receivers lock into the brackets (fig 4).

(fig 1)



(fig 2)



(fig 4)

(fig 3)

Operation

To allow for sufficient room for the backrest to recline, the chair must be placed at least 46cm (18") at the rear from a wall or surrounding furniture. Your Lift-Recline Chair is operated by a hand control located on the right hand side of the chair.

The handset for the single motor chair has 2 buttons (fig 5). One will lower and recline the backrest and the other will raise and incline the seat. The chair will only move when the selected button is continuously pressed. To stop in any position, simply release the button. To recline the chair, press the "down" button and hold, until the backrest is in the required position. To raise the chair, press the "up" button and hold until the seat is in the raised position. The handset for the dual motor chair has 5 buttons.

(fig 5)

Note:- If Riser Recliner does not operate, check thoroughly that the above assembly instructions have been administered.

SERENA & SOFIA RISER RECLINER ARMCHAIRS

Caution
When raising the chair seat, always keep your feet in contact with the ground. Do not operate the chair unless you are certain there are no children or pets anywhere near or at the rear of the chair. Do not allow any liquids to come in contact with the hand control and any spilt drinks or fluids on the seat are to be immediately removed to avoid possible contact with the electrics underneath. Remove power supply immediately.

Battery Back-Up Supply
In the event of a mains power supply failure, your chair will automatically be operated from the battery supply system. The batteries should be fitted to the transformer. They will not be connected at time of shipping from Days Healthcare. Please ensure that the batteries are connected to the transformer, before use and that they remain connected. Replacement batteries can be sourced from your local shop or supermarket and we advise you to replace them every two years or immediately after use to ensure adequate supply of power in the event of a mains supply failure.

Maintenance and Cleaning
Your chair does not require any routine or regular service. In the event of a fault, please contact your Supplier or local Days Healthcare Agent. The motor and folding mechanism requires no cleaning. The upholstery can be cleaned with light sponging of warm soapy water or domestic upholstery cleaner. Do not use bleach base cleaners to avoid discolouration.

Warranty
The Days Healthcare range of Lift-Recline Chairs are warranted for two years from date of purchase against faulty workmanship or materials on the frame, mechanics and electric controls. Note - Wear and tear on the upholstery is not covered. Please contact your Supplier/Dealer should a fault occur. The warranty does not extend to the consequential costs resulting from fault clearance, in particular freight and travel costs, loss of earnings, expenses etc. The manufacturer will not accept responsibility for any damages or injury caused by misuse or non-observance of the instructions set out above.

Disposing of the Riser Recliner Armchair
The Chair consists of metal and plastic components, electronic components, electrical cables and batteries. Disposal of the individual materials must be carried out in accordance with environmental and disposal regulations in the relevant country, and may only take place after the riser recliner chair has been dismantled. To dismantle the chair and to separate and dispose of the materials, you would be advised to hand it over to your specialist dealer. Batteries may not be disposed of in domestic waste, and must be disposed of according to national regulations.
